We Pay The Freight On All Shipments

You know your full cost now. Living plants shipped via parcel post "Special Handling" with the speed of first class mail.

We guarantee delivery of good material in good condition. If a shipment suffers loss or damage in transit, please let us know at once and the loss will be replaced.

"Grow Extra Dollars—At Home"

The author, Ray Reynolds, has built a profitable sideline business growing plants at home for wholesale to local retail outlets, while commuting to his regular city job.

From practical and successful experience he tells home gardeners how to procure or make the equipment needed, what to grow, how to plan production, how to price, where and how to sell... in short, exactly how to have a profitable hobby and your own business.

"Serves as an invaluable guide as it deals with information not found in the typical garden books."—Chicago Tribune

"Covers both the business principles involved and the many operating details."—Flower Grower Magazine

"There is much in this small volume to make it valuable to anyone."—Organic Gardening Magazine

REYNOLDS GARDENS "One or More of Each Variety" Armonk, New York

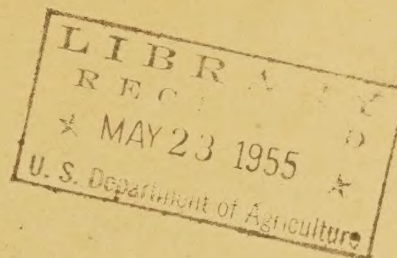

You, as a flower hobbyist or retail grower, may well have difficulty in buying desired varieties at retail, or must buy too many of one kind at wholesale, or are unable to find some kinds at any price.

Meanwhile, specialists are developing and improving the plant of their choice. In contrast to purely commercial growers, they have variety rather than volume. This, without commercial overhead cost, makes possible our unique feature of "one or more of each variety," at fair prices.

This service provides an outlet for specialist growers and a convenient, economical source of supply for you.

ALL ITEMS LISTED ARE GROWN AND SHIPPED BY OUT-OF-TOWN SPECIALISTS

EPIPHYLLUM—Orchid-Cactus

(8"-10" THICK, UNROOTED CUTTINGS)

This jungle jewel is well worthwhile to hobbyists for pots and hanging baskets. The plant is different with jointed, leathery leaves from which burst flowers of orchidaceous texture.

We can practically guarantee 100% rooting. Some cuttings will bloom the first year. Older plants are prolific bloomers. Flowers are 2 to 10 inches across, depending upon variety, and excellent corsage material. Cultural directions sent with shipment.

Qty.	MINIMUM SHIPMENT \$4.00
...ACKERMANNI—salmon red with white stamens. Funnel form.	
...COOPERI—species. Pure white flowers.	
...DANTE—orange-red, inner petals overcast violet.	
...PADRE—clear pink. Early bloomer. Funnel flowers.	
...POLAR BEAR—large, wide open, white flower.

If the supply of top grade plants of a variety becomes exhausted, we will substitute the nearest equal, or probably better, variety.

TREE PEONIES

(FROM 5" POTS)

Long the favorite of Emperors of China, tree peonies adorned their gardens and in tubs graced their courtyards. Louis XIV had them in the gardens of Versailles; but they are a bit expensive for common use. How rarely we see one! On the grounds, or in tubs on the patio, they would be outstanding—something to admire and to show.

A shrub rather than a tree, they attain a height of 5 to 6 feet and in time have 200 blooms to a plant. The flowers are like herbaceous peonies, refined and beautiful, but usually larger, sometimes 8 to 10 inches across. The plants are entirely hardy and longlived. Can be forced for winter bloom in the greenhouse.

These plants from 5" pots should bloom this year, certainly next. Shipped anytime. Complete cultural directions with shipment.

Why Minimums?

As it costs about as much to process, pack, and ship an order for two items as 100, each grower sets a minimum below which shipments are made at a loss.

STRELITZIA—Bird of Paradise Flower

This is a rugged tropical plant which will bloom in a sunny window but is a bit large for a house plant and looks happier in the hobby greenhouse. You have seen the exotic flowers, like gaudy birds poised for flight, in higher priced florists. The plants, however, are hard to find.

They bloom when four to six years old. We have a California grower with a nice stock of plants which he is selling very reasonably.

Qty.
...3 year old plants, 12"-18" high, from 6" pots @ \$3.50 each.....
...blooming size and age plants from large containers @ \$7.00 each.....

Hint On Buying Plants

Growers cannot tell in advance which varieties will sell best. They fill their benches with newer, improved kinds and start the season with a reasonable number of each.

Before long they get an order taking all of one kind. That may be a kind which you checked just to fill the minimum shipment. If so, your order must be held for new cuttings to root—while plenty of equally good varieties remain in the benches.

So we suggest that instead of forcing your selection to make the minimum, you check the varieties you want and leave the rest, if any, to the growers. This is very helpful to them in shipping promptly to you a well-rounded assortment of good plants.

CANNAS

(2-5 EYE ROOT DIVISIONS)

The summer evening band concert—the octagonal bandstand in the village park—and solid beds and borders of flaming cannas.

Cannas went out with surreys, but have since been hybridized and glorified into tones ranging from ivory and yellow through rose and apricot to rich scarlet. Both the bold tropical foliage in green and bronze, and the great heads of vivid color make this cousin of the banana a handsome plant for bedding and background.

Roots can be carried over the winter in the root cellar. These are 2 to 5 eye root divisions, each variety labeled, and shipped from Georgia until May first.

Qty

-APRICOT—3' tall; rich apricot, green leaves.
-CITY OF PORTLAND—3½' tall; pure pink with green leaves.
-EUREKA—4½' tall; creamy white with green leaves.
-HUNGARIA—3½' tall; La France rose-pink, green leaves.
-KING HUMBERT—4' tall; Gold Medal winner, orange-scarlet, bronzy-red leaves.
-KING MIDAS—4' tall; pure gold with green leaves.
-MME. CROZY—3½' tall; very large crimson with yellow border, green leaves.
-PRESIDENT—immense flaming scarlet, green leaves.
-WYOMING—5½' tall; rich orange, stately purple-bronze leaves.
-YELLOW KING HUMBERT—4' tall; deep rich yellow with crimson dots, green leaves.

ASTILBE (clumps)

This is seldom seen in gardens, possibly because it is rarely grown from seed and the roots are not usually listed in catalogs. It is a hardy perennial from Japan with pleasing, finely-cut foliage and those feathery plumes of blooms which are so effective in arrangements.

"Astilbe is a handsome item for midsummer bloom in the garden and blossoms year after year. Easy to grow in a sunny or partly shady location. It is also a good greenhouse forcing subject."

These clumps for garden planting this spring can be lifted in November for greenhouse forcing for Easter. Shipped until May 31. Minimum 5 clumps.

Qty

-BONN—deep red, medium height. Effective in the border and good for forcing.
-BREMEN—a brilliant pink and gorgeous forcer, about 20" high.
-DEUTSCHLAND—plumy white, 2' tall. Splendid in borders blooming from late June through July. Can also be potted in late fall for Easter bloom.
-FANAL—old-fashioned favorite similar to Bonn. Good for border and forcing.
-GLADSTONE—the best white for forcing; plumy, compact, and short.
-GLORIA SUPERBA—a deep pink, rather tall. Very vigorous blooms from mid-June to well into July. Very showy for landscape work.
-PEACH BLOSSOM—lovely soft pink, spikes dense and compact, 18" high; blooms for three weeks from June 15.
-RHINELAND—deep crimson, medium height. Good for border and forcing.

....total number of clumps (minimum shipment 5 clumps) @ .70 each.....\$.....

OR one each of all eight varieties for.....5.25 \$.....

FUCHSIAS (rooted cuttings)

An old time favorite in striking colors of purple, crimson, pink and white; fuchsias are worth growing as a special hobby.

They make showy pot plants and unusual hanging baskets; also interesting tub plants for the patio grown to straight 3 foot trunks supporting umbrellas of handsome pendant "eardrops."

Qty

MINIMUM SHIPMENT \$3.50

-BLACK PRINCE—single; corolla crimson, sepals dark crimson.
-CHANG—small single flowers; corolla and sepals vivid orange with inside of petals almost white.
-FASCINATION—very double; corolla soft pink flushed deeper pink, sepals deep pink.
-GIANT PINK—very full double; corolla red, sepals pink.
-LAVENDER BEAUTY—double; corolla crimson, sepals lavender.
-LUCKY STRIKE—double; inside petals solid blue-purple, outer petals pink with purple marks, sepals ivory white.
-PINK PEARL—single; corolla crimson, sepals clear pink.
-PRIDE OF ORION—double; corolla white veined pink, sepals fiery crimson. Large blooms.
-TROPHEE—semi-double; corolla violet-blue, sepals waxy white.
-WINSTON CHURCHILL—double; corolla beautiful bluish pink, sepals rose-pink; prolific medium sized blooms.

AFRICAN VIOLETS

(ROOTED PLANTLETS)

African Violets are omitted from this issue as our growers are behind on shipments. They also need the time this Summer to propagate large quantities of the new and interesting varieties which will be listed in our September catalog.

UNUSUAL GERANIUMS

(FROM 2 1/4" POTS)

Here is a new list of varieties of geraniums which most people never see. These are singles, doubles, and dwarfs; in odd colors, bi-colors, and tri-colored pansy faces; leaves ivy, fancy, and multi-colored. All are pungent and a few bruised leaves of scented varieties add a whiff of spicy fragrance to linen closets and such.

Qty SINGLE VARIETIES

- ...CUBA—large flower heads of light orange.
- ...DOROTHEA LOUISE—low growing; bright scarlet with white eye.
- ...MARY ELLEN—large clusters of bright cerise blooms.
- ...MRS. E. G. HILL—strong, definite salmon-pink.
- ...NEW PHLOX—white with pink phlox eye.
- ...PAINTED LADY—very large heads of red shading to white.
- ...PATRICIA AUDETTE—large light pink with white eye. Robust grower.
- ...PAUL CRAMPBELL—the old-fashioned bright scarlet.
- ...SNOWDROP—the favorite single pure white.
- ...WHITE WONDER—extra large white with slight pink tint.

DOUBLE VARIETIES

- ...AMERICAN BEAUTY—large crimson-rose. Tall growing.
- ...BETTER TIMES—compact, free-flowering crimson-red.
- ...DRYDEN—cherry-red shading to white center.
- ...GALLANT—large salmon-red heads. Free blooming.
- ...LULLABY—large salmon-apricot. Also called Peaches and Cream.
- ...MRS. LAURENCE—low growing, free blooming, light pink.
- ...PHENOMENAL—rose shading to white. Large flower heads.
- ...PRIDE OF CAMDEN—free blooming dark red.
- ...PRINCE OF ORANGE—bright salmon-orange.

FANCY LEAFED VARIETIES

- ...ATTRACTION—light green leaf with white edge. Single red blooms.
- ...DISTINCTION—bright green crimped leaf with narrow red zone. Single red flowers.
- ...LADY CULLEN—golden edge with red brown and green zone. Red blooms.
- ...MME. SALERON UPRIGHT—variegated leaf. Small single pink flowers.
- ...MARECHAL MacMAHON—gold leaf with wide brown zone. Single scarlet bloom.
- ...SILVER RUBY—silver-grey leaf with white edge. Double rose-red flowers.
- ...VERONA—pure gold leaf. Single light pink flowers.
- ...WILHELM LANGGUTH—wide creamy border. Large double red flowers.

ODD VARIETIES

- ...APPLEBLOSSOM ROSEBUD—very double; white with rose-red edging, green center and green stripes.
- ...ASCETOSUM—grey-green scalloped leaves. Fluffy salmon-pink blooms.
- ...CERISE CARNATION—cerise-crimson, carnation type flowers.
- ...GIBBOSUM—grey cut leaves. Small yellow flowers.
- ...MADAME THIBAUT—ivy foliage. White and soft pink flowers.
- ...MR. WREN—single light red flowers with white border.
- ...MRS. LAYAL—pansy-flowered; white and purple.
- ...MORNING STAR—soft salmon; petals twisted, tapered, and curled.
- ...PINK ROSEBUD—very double; rose-red inside, pink outside.

CHRYSANTHEMUMS

(GREENHOUSE VARIETIES—ROOTED CUTTINGS)

In southern California we have a chrysanthemum enthusiast with a wide range of greenhouse varieties, and with saleable quantities of rooted cuttings of the following kinds. Most of these bloom too late for northern gardens, and many are not hardy. Plant them in the field when received, lift the clumps in the fall, and pot for winter bloom in the greenhouse. Minimum shipment 8 plants.

Qty LARGE FLOWERING Bloom Date

- ...APRICOT MAY WALLACE—incurve; pastel shade of apricot.....11-15

CHRYSANTHEMUMS

(GARDEN VARIETIES—ROOTED CUTTINGS)

Can be planted directly in the garden for outdoor bloom this autumn, or grown in the greenhouse for bloom through early winter. They multiply freely and will give you a grand chrysanthemum showing next year.

These hardy varieties are shipped from Michigan and cannot be combined with greenhouse types from California.

From both points we guarantee to deliver strong, well-rooted, labeled cuttings in good condition. Cultural and pinching directions sent with each shipment. Minimum shipment 8 plants.
